Base Charge + Image-Package = Total investment

Nice to see, you found me!

ABOUT ME AND MY PHILOSOPHY

Hi, I'm Selina: a passionate CrossFit enthusiast, world traveler, and family photographer.

Whether you're newly in love, deep in wedding preparations, or expecting a new addition to the family, I'm here to accompany you through all these wonderful chapters. My goal is to preserve memories for you through photos that will always bring a big smile to your face, transporting you back to the most beautiful moments of your life. I cover the beautiful regions of Böblingen, Tübingen, Stuttgart, Reutlingen, and Sindelfingen.

I would be delighted to photograph you and capture all those beautiful memories and moments for you.

My Concept:

Base Charge + Image-Package = Total investment

For me, it's about more than just taking photos. It's about you! That's why providing a "hassle-free" experience is very important to me.

The base fee covers the following services:

- Shooting preparation with all the information about the process, plus a style guide for choosing the right outfits
- Location consultation to find a place that suits you and your needs
- Newborn and maternity guide to help you prepare optimally for our shoot
- A wide selection of unique shooting dresses for (expecting) moms
- A selection of high-quality baby and children's clothing
- Additional shooting accessories for your outdoor session, such as dried flower bouquets, hats, teepees, blankets, and milestone cards
- Photo editing in the typical Selina Klein Photography style
- Detailed retouching (e.g., skin imperfections, distracting background elements, etc.) – each image is meticulously optimized by me
- Travel expenses up to 20 km (after that, €0.50/km)

And of course: The shoot itself.

The base fee does not include digital image files. You will decide on the number of images you want only after you have seen them. It's completely straightforward and tailored to your needs.

Babybelly
